# STREAMLINE CLASSROOM WORKFLOW AND BOOST STUDENT ACHIEVEMENT.

SIMPLIFY PRINTING, COLLECTING, AND ANALYZING MULTIPLE-CHOICE TESTS.

TEACHING ASSISTANT USES ECONOMICAL PLAIN PAPER TO GENERATE BUBBLE SHEETS, MAKING BUYING AND STOCKING EXPENSIVE, PRE-PRINTED SHEETS A THING OF THE PAST.

## TEACHING ASSISTANT BENEFITS

- > Bubble sheets and answer key print on plain paper, eliminating the need for special media and scanning systems, lowering costs across the board
- > Summary and Detail reports, including bar graphs, histograms and test statistics provide instructors with at-a-glance feedback on how students fared
- > Productivity soars when time is no longer spent manually grading tests
- > Tests can be created on demand. If select students are struggling in a particular subject area, teachers can create a test to fill specific learning gaps
- > MS Excel integration, for advanced grading flexibility and the ability to print test sheets with student names
- > Detailed test data for each question
