CDW·G and the Oakland Schools Educational Consortium Contract 18-007

Creating Safe Learning Environments

As someone responsible for a school's safety, you're dedicated to providing a secure learning environment for those entrusted to your care. Through its innovative surveillance solutions, V5 Systems can help your school thwart potential threats and protect students and personnel.

 V5 SYSTEMS

Safeguarding K-12 Schools

▪ Rapidly Gain Visibility

Stream live video or on-demand to see real-time insight and access to vulnerable outdoor areas, including your perimeter with V5 Systems' self-powered HD video solution. Each unit can be deployed in under 30 minutes, and can provide situational video coverage.

▪ Free from the Electrical Grid

Each V5 PSU-Streaming device gives schools the flexibility of being completely off-grid via solar, battery and a power management system or connecting to fixed power, enabling the security system to be operational when power goes down.

▪ School Customization

Tailor the V5 Portable Security Unit to provide situational awareness, alert-based analytics and license plate reading. Utilize different brand cameras or integrate into third-party video management systems.

▪ Easy Deployment

Every portable, self-contained security solution arrives pre-configured. No IT personnel required.

▪ Wireless Connection

The portable device communicates wirelessly with Wi-Fi, cellular, radio frequency or satellite.

▪ Unencumbered Learning

At less than 25 lbs. each, schools can move the units as needed without disrupting the scholastic environment, and have the flexibility to address and secure outdoor events.

▪ Give Peace of Mind

Improve peace of mind for students, parents and educators so they can focus on the future. AI-driven, real-time alerts allow campus officers to respond to potential threats immediately.

CDW·G and AEPA help educators expand students' potential with innovative tech from over 1,000 leading partners and bring it to you at a competitive price. **When you buy from CDW·G you get:**

▪ A K-12 dedicated account team

offering expert advice, installation and ongoing support are available through your dedicated account team via email, phone and the web.

▪ A CDW·G account provides

customizable access to product information, quotes, order status, asset and license management tools and more.

▪ Extensive services

for design, installation, configuration, professional development, cloud and more.

To get started, contact your dedicated CDW·G account manager at **800.808.4239** or visit CDWG.com/aepea.
