deledao
A New Way

The Smartest Web Filter for K12

Deledao ActiveInsights™ is the first solution that uses patented InstantAI™ technology across its products to prevent students from going down rabbit holes on YouTube, Google Sites, Google Doodles, and more. Deledao helps IT admins and educators streamline their workflows while defeating digital distractions, with the final result of helping to improve student engagement and recover the academic gains eroded by the pandemic.

Who We Are

Founded in 2019 by Silicon Valley veterans and proxy filtering technology pioneers, Deledao originated from a need to address the rise of digital distractions in education.

While initially focused on changing the world of content filtering for K-12 schools, Deledao's patented real-time AI solutions have expanded to student safety and classroom management, serving institutions globally across the United States, Canada, Europe, New Zealand, and Australia.

Why Choose Us

AEPA
Association of Educational
PURCHASING AGENCIES

Streamlined Security and Filtering

Deledao goes beyond conventional filters with real-time AI analysis, for a more streamlined and nuanced approach to content filtering.

Efficiency in Classroom Management

Deledao's AI minimizes manual interventions for teachers and your IT team, saving time and allowing a focus on teaching rather than dealing with distractions.

Personalized Customer Experience

Deledao offers a high level of customizability to tailor its solution according to the unique needs of different schools (e.g., private, charter, etc.)

Our Solutions

ActiveScan™ – Web Filter

- Real-time AI video/image blurring
