COLD AT WORK?

Try a heated office chair

The Benefits of a Heated Chair:

Office too cold?

Winters are cold and Summer air conditioning can be even worse. If you are cold, no matter what the season, a heated chair is the perfect solution.

Relieve minor aches & pains

Heat relaxes muscles, stimulates blood flow and improves circulation. Stiff, tense and sore muscles can be relieved with a little heat.

Avoid danger!

Space heaters, used improperly, can be a potential fire hazard. Take the worry out and stay warm with a battery-powered heated chair.
