KIBOSH FASTFREEZE

61690 Fastfreeze Spray Large 10 oz

61691 1/2" Fastfreeze Pipe Clamp

61692 3/4" Fastfreeze Pipe Clamp

Kibosh Fast Freeze Clamps rapidly form ice plugs in static water lines eliminating the need to drain down a system to make a repair. They require less freezing gas than foam sleeves to achieve and maintain an isolating ice plug.

Pipe Freeze Spray is injected into the freeze clamp using the straw provided via the fluid inlet hole. The contact foam inside the clamp cavity absorbs the freeze spray and allows it to evaporate slowly through the vent hole. This quickly cools down the pipe wall and the water, creating an isolating ice plug within the pipe.

FEATURES

- Clamp is easily attached to the pipe with a click.
- The fully sealed enclosed cavity delivers a more efficient focused and faster freeze.
- The FASTFREEZE clamp is suitable for different pipes – Copper, Steel, Plastic, Lead & Iron pipes

TRUE UTILITY POCKET KNIFE WITH REPLACEABLE BLADES

11380

The secure, two-step blade release system gives great cutting control and makes blade replacement simple. The fine edge blade is great for opening boxes and slicing materials while the saw blade is ideal for cutting rope, branches, etc. The Replaceable Blade Knife comes with three blades: two fine edge blades and a saw blades. The steel clip and blade storage case provide convenient carry.

FEATURES

- Blade Shape: Drop Point
- Blade Length: 3.5"
- Blade Steel: 3CR13 Stainless Steel
- Blade Finish: Black Oxide
- Locking Mechanism: Liner lock
- Handle: Fiberglass-filled Nylon

INCLUDED ACCESSORIES

- 3.5" Saw Blade
- (2) 3.5" Fine Edge Blade
- Blade Carrying Case

Replacement Blades:

11400 Replacement Blades (Pk/5)

Diablo Steel Demon Carbide Reciprocating Blades for Medium Metal Cutting

#88110463 - 9"

#88110477 - 12"

Steel Demon carbide 10 TPI medium metal cutting reciprocating blade delivers 50x longer cutting life and clean finish for strut, pipe, stainless steel and all other metals ranging in 1/16" to 1/8" thickness. pg. 10-35

- High performance carbide for greater durability and cutting performance in medium metal
- Enhanced carbide to blade connection for extreme impact resistance
- 10 TPI tooth geometry for clean/smooth finishes on medium metal applications
- 1 in. oversized blade body for straighter cuts with less vibration
- Ideal for cutting all metals between 1/16 in. to 5/16 in.
- Ideal for medium metal cutting such as cast iron pipe, stainless steel materials, angle tubing and struts

Liquid Lime Solv (CS/12)

#98650

APPLICATION: Removes lime, rust, scale and other hard mineral deposits. Dissolves urinary salts. Works on gas hot water heaters, heat exchangers, hot water coils and boilers, cooling towers, condensers, toilet bowls, urinals. Safe to use on steel copper, iron, bronze, and lead piping. pg. 6-78

ACTIVE INGREDIENTS: Hydrochloric Acid

Toilet Flange Repair Metal Quick Ring

#55555

Use the Quick Ring to replace any and all closet rings. Install the quick ring around the body of the flange. The unique screw tabs attach to wood or concrete. The old closet ring does not need to be present. pg. 5-10

- Install around body of flange
- Plastisol coat provides corrosion protection
- Slotted for 1/4" or 5/16" closet bolt
