

AEPA Cooperative Contract Benefits

1. Leverage the purchasing power to benefit all schools and qualified entities regardless of size, with the ability to purchase at equal buying levels.
2. Stream line the bidding and purchasing process through a single recognized purchasing solicitation.
3. Provide a contract that is available statewide or regionally with one identified cooperative agency to function as the lead facilitator and representative.
4. Develop purchasing options and solutions for interested qualified customers.
5. Provide collaboration and communication to enhance customer purchasing.

What this means for schools, higher education, non-profits, cities, states, local and federal government entities:

- You do not need to get a quote or bid to order the above product.
- The pre-negotiated contract was awarded for all participants at a premium price.
