A healthy student is a better, more productive student and with contracted pricing through **Oakland Schools Cooperative Contracts Network** of only **\$2.50 per student** for the entire 2025-2026 school year they will have exposure to the evidence-based **The OrganWise Guys** program that will help improve their health and academic status. (If your school prefers to kick-off the program this January, you'll get 18-months instead of 12 for no extra cost!)

This digital-platform based, whole-child, whole-school approach to nutrition and healthy living is a scientifically-proven program that:

- Improves students' test scores
- Improves children's health in a statistically significant manner
- Is linked to STEM, Health & PE and state-specific academic standards
- Includes curriculum in both English and Spanish
- Includes social and emotional health curriculum
- Is flexible, easy-to-implement and keeps students on task
- Includes the whole school environment in health promotion
- Provides content for afterschool and summer programming
- Comes with complimentary teacher training!

Investing in the health of your students is an investment in their future. I would love the opportunity to discuss how this program can benefit your school community. [Schedule a 15-minute call at your convenience here.](#)

Thank you for considering this exciting initiative!
