

VIEWpath®

Video Interactive Education Window

Capture, collaborate, & cultivate learning with VIEWpath's K-12-friendly platform for recording and sharing instructional video. Our new AI Lecture Summary, Feedback Assist, and shared libraries simplify adoption and amplify collaboration, enabling teachers to focus on high-quality instruction and continuous professional growth.

BENEFITS OF THE VIEWpath SYSTEM

TEACHER CONTROLLED

Teacher autonomy comes first, with secure, permission-based sharing, teachers are in full control of their cameras and recorded content.

ANYTIME ACCESS

Supports in-person, blended, and remote learning by allowing students to revisit lessons anytime and maintains continuity during absences or disruptions.

SIMPLE ALL-IN-ONE LESSON CAPTURE AND DELIVERY

Record, edit, and securely share lessons in one platform, capturing camera and desktop side by side for easy access by students and colleagues.

VIEWpath HIGHLIGHTS

FLEXIBLE CAMERA OPTIONS

The **Educam360®** is a 4K camera providing coverage of the entire classroom for reviewing student engagement.

The **EduCamPTZ** easily broadcasts and captures lessons with a 31x optical zoom, allowing you to capture and share the smallest classroom details.

AI-POWERED LECTURE SUMMARY

Automatically generates concise written summaries of recorded lessons that can be shared in MyWorkshop or PDF format.

FEEDBACK ASSIST

Simplify and standardize review and coaching loop processes using our customizable structured feedback tool. Timestamps make feedback hyper relevant.

94%

of educators agree that watching their videos helps them identify their development areas

88%

of educators report that watching recordings of their lessons changes their practice
