SPECIAL EDUCATION SKILLS SUITE EXPANSION

RethinkEd is a leader in providing resources that support students with diverse learning needs. We are expanding the Vizzle Interactive Learning Platform to include a comprehensive Special Education Skills Suite. This suite is dedicated to learning and generalizing skills needed for daily living for students from kindergarten to graduation as they transition out into the world. Our goal is to provide educators and students with resources and activities to meet IEP goals and objectives with the long-term goal of independence and success.

The RethinkEd Special Education Skills Suite will include grade-banded **Life Skills**, **Social Skills**, and **Transition/Vocational Skills**. Each skill set will include resources with unit guides, lesson plans, assessments, interactive activities, and new extension activities (offline resources) to help teachers plan efficiently and effectively with diverse groups of students. Differentiated activities allow teachers to have control over different student levels of learning. Online resources provide direct instruction and practice activities, with offline activities to practice and master skills across environments.

TRANSITION/ VOCATIONAL SKILLS (Grades 6-12)

Focusing on career readiness as students plan for the transition to work, trade school, and post-secondary options.

Areas of emphasis will include:

- Career Attire
- Career Development
- Careers in the Community
- Empathy Skills
- Employability Skills
- Employment Skills
- Interpersonal Skills
- Job Demands
- Job Performance
- Job Seeking Skills
- Self-Advocacy
- Self-Determination
- Personal Management
- Workplace Awareness

SOCIAL SKILLS (Grades K-2, 3-5, 6-8, 9-12)

Building skills from early elementary through high school to advance student learning and development.

Units will include:

- Decision Making
- Relationship Skills
- Self-Awareness
- Self-Management
- Social-Awareness

LIFE SKILLS (Grades K-2, 3-5, 6-8, 9-12)

Recognizing the importance of life skills, age-appropriateness, and the building of skills as a lifelong journey to independence.

Units will include:

- Community Access
- Health Management
- Independent Living
- Money Management
- Personal Care
- Safety Practices
- Tools for Independence
